2. Financial update

3. Asset quality

4. Funding and liquidity

5. Sustainability and green bond framework

6. Appendix

1. This is Skandiabanken

skandia :

This is Skandiabanken

- Swedish retail bank established in 1994
- Owned by Skandia Liv
- Three core business lines:
 - » Loans: Mortgages with a transparent pricing model
 - » Savings: Funds, stocks and savings accounts
 - » Payments: Debit cards, bills, Swish, ApplePay
- High customer satisfaction
- High quality of assets
- Strong capital and liquidity position

Size

136 bn in assets
297 employees
379 000 customers

Mortgage lending

SEK 112 bn
Market share: ~2,7%

Retail deposits

SEK 56 bn
Market share: ~1,9%

Rating by Moody's

Issuer rating A2 (Stable)
Covered bond rating Aaa

Business model focused on Swedish mortgages

- All business in Sweden
- Lending only in SEK
- No corporate lending
- Digital business
- No private banking
- No handling of cash
- Most of the income from secured lending

Assets

Distribution of income

Strong lending and deposit growth

- Strong lending increase over recent years albeit a more challenging first six months of 2025
- Utilising economies of scale
- Challenging competitors with fair and transparent pricing
- Access to customers of the Skandia Group

Increased mortgage market share

- Gradually increasing our share of the market
- Managed to add volumes in periods with low market growth
- Ambitions to continue to gain market shares

Swedish quality index (SKI) 2024

SKI retail bank customers

SKI mortgages

SKI savings in securities

2. Financial update

skandia:

Utilising economies of scale

- Our digital concept enables growth at a low cost
- A scalable model encourages long-term growth
- Increase in costs over last couple of years attributable to
 - Increased number of employees
 - Regulatory compliance
 - Digitalisation and customer offering

Improved RoE and Cost/income

- Improved RoE and cost/Income ratios has flattened out over last couple of years
- Main drivers
 - 2020-2023: Cost control and improved income due to lending growth and higher deposit margins
 - 2024 – H1 2025: Higher income due to lending growth countered by lower deposit margins and higher costs

3. Asset quality & cover pool

skandia:

Balance sheet

High quality lending and liquidity accounts for most of the assets

Balance sheet

- Transparent balance sheet
- Approx. 99% mortgages and liquidity reserve
- No corporate lending
- Negligible unsecured lending (<1%)
- Sound funding structure
- Loan to deposit ratio 209%
- Deposits and covered bonds account for over 90% of total funding

Distribution of mortgages

Geography

Category

- Majority of lending to urban areas
- Most lending to single-family houses and tenant owner rights
- Approximately 85 per cent of the back book in variable rates

Credit losses remaining low

- Slightly higher numbers 2022-2023
- Lower in 2024 due to change in categorisation
- Granted amortisation reliefs no longer automatically categorised as "stage 3"

Cover pool details

Fact Sheet

Cover pool data*	
Cover pool size	SEK 87 001 M
Outstanding covered bonds	SEK 65 148 M
Collateral	100 percent Swedish residential mortgages
Over collateralisation	34%
Weighted average LTV	53%
Average loan size	SEK 1 933 503
Interest rate type	Floating & Fixed
Weighted average seasoning	59 months
Pool type	Dynamic
Originator	Skandiabanken AB

*Figures as of Q2 2025

Sensitivity analysis

4. Funding and liquidity

skandia:

Liquidity position

Assets

- Low appetite for liquidity risk
- High and stable LCR and NSFR
- LCR 362%
- NSFR 131%
- High quality liquidity reserve (Riksbank certificates, municipal bonds, covered bonds)
- Holdings eligible as collateral at the central bank

Sources of funding

Foundation in retail deposits and covered bonds

Sources of funding

Lending/Deposits

- Retail deposits and covered bonds account for most of the funding
- In recent years lending growth mainly funded by covered bonds
- Covered bonds and deposits will remain most important funding sources

Funding plan - 2025

Forecast and historical outcome

- Continued growth will be financed using retail deposits and covered bonds
- Senior preferred primarily to support rating
- Senior non-preferred to comply with MREL-requirements
- Issuance of green bonds
- Estimated funding need around SEK 17-18 bn

Historical funding and forecast (SEKbn)

Secured funding

Maturity profile (SEKbn)

- Covered bonds
 - Soft-bullet structures
 - Focus on FRNs in SEK
 - Tap issuance
 - Buy-back policy (3-6 months to maturity)
- Larger individual bond size
 - Improved liquidity to be expected with increased volumes
- Outstanding covered bonds amounts to around SEK 65 bn
- Current remaining maturities in 2025 reduced to below SEK 2 bn through buy backs

Unsecured funding

Maturity profile (SEKbn)

Senior preferred

- Support of rating
- FRNs or Fixed
- High quality exposure

Senior non-preferred

- MREL-regulation
- Shifting from senior preferred

Commercial paper

- Source of short-term liquidity
- Maintain presence

Funding in the capital markets

- Covered bonds constitute about 90% of capital markets funding
- Senior bonds for regulatory purposes and rating
- Commercial paper market presence
- Regular activity in the SEK primary market
- First green bond issued in 2024
- Striving for transparency in communication
- Long-term commitment

Capital markets funding

Capital and MREL position

	Q2 2025	Requirement
Own funds	19,4%	14,3%
Tier 1	17,9%	12,0%
CET 1	17,9%	10,3%
Leverage ratio	4,2%	3,5%
Risk-weighted MREL	30,8%	21,7%
Non-risk-weighted MREL	8,4%	6,0%
Risk-weighted subordination	26,1%	18,7%
Non-risk-weighted subordination	7,3%	6,0%

5. Sustainability and green bond framework

skandia:

Sustainability at Skandiabanken

Skandia Group's sustainability framework

Responsible Banking Services

Skandiabanken offers simple, transparent and sustainable products and services that aim to benefit our clients and to contribute to society

Responsible lending

- Transparent and fair pricing model
- Green mortgage offering
- Shaping public opinion on the housing situation for young people

Sustainable savings

- Facilitating the choice of sustainable funds by providing sustainability information and web-based tools
- Mutual fund portfolios with sustainability focus

Skandiabanken's four material sustainability topics

	Sustainability topics (ESRS)	Skandiabanken's material sustainability matters
	Climate change mitigation (E1)	Climate change mitigation (lending portfolio)
	Own workforce (S1)	Work conditions, health and safety Diversity and inclusion Training and skills development
	Consumers and end-users (S4)	Data protection and information security Responsible and transparent products and services
	Business conduct (G1)	Financial crime prevention

- Skandiabanken's double materiality analysis is conducted according to the European Sustainability Reporting Standards (ESRS)
- The identified material sustainability matters inform the bank's sustainability strategy and sustainability risk management
- Targets and metrics for all material topics were set in 2024
- Reporting on targets and metrics commences in annual report for FY 2025
- Target setting is integrated into annual business planning process

Our sustainability journey

2020	2021	2022	2023	2024	2025
✓ Head of Sustainability appointed ✓ Inaugural publication of Annual Sustainability Report ✓ Adopted bank-specific sustainability policy ✓ Stakeholder dialogues and inaugural materiality analysis	✓ Committed to the Principles for Responsible Banking (PRB) ✓ Sustainability training for licensed employees ✓ Employment of a sustainability specialist	✓ First PRB impact analysis completed and first progress report to PRB ✓ Climate risk analysis of the lending portfolio ✓ Gathered energy performance classifications of mortgage portfolio for the first time	✓ PCAF Signatory (Partnership for Carbon Accounting Financials) ✓ Published Green Bond Framework and Second-Party Opinion ✓ Introduction of green mortgages ✓ Launch of a web-based energy saving tool for homeowners	✓ First Green Bonds issued ✓ First climate report, measuring financed emissions from the mortgage portfolio ✓ Restructuring of sustainability function ✓ Preparations for upcoming CSRD reporting (Corporate Sustainability Reporting Directive)	✓ First Green Bond Investor Report published ▪ Development of 2030 climate targets ▪ Preparation of CSRD-like report (due to stop-the-clock)

The Green Bond Framework

Key Highlights

Material topic
Climate change
mitigation (E1)

- Foundation for the issuance of Skandiabanken's green bonds
- Aligned with the core components of the ICMA Green Bond Principles (2021)
- Financing of green assets selected from 3 project categories:
 - New residential buildings (built after 31 Dec 2020)
 - Existing residential buildings (built before 31 Dec 2020)
 - Major renovations of residential buildings
- Eligibility assessed via energy performance certificates (EPC)
- Broadly aligned with the EU Taxonomy for sustainable activities¹

Access the Framework in English [here](#)

Second party opinion by Sustainalytics

Key Highlights

- Confirms our commitment to sustainability
- Supports our choice of method for selecting green assets
- Ensures credibility and relevance as well as alignment with ICMA Green Bond Principles (GBP)

The ICMA Green Bond Principles recommend an external review of the Green Bond Framework prior to the first issuance.

"Sustainalytics considers that investments in the eligible category will lead to positive environmental impacts and advance the UN Sustainable Development Goals, specifically SDG 7."

"...Skandiabanken's financing of green buildings will contribute to emissions reduction in the buildings sector and will further support Sweden in achieving its climate targets."

"...the Skandiabanken Green Bond Framework is robust, transparent and in alignment with the four core components of the Green Bond Principles 2021."

[Second-party opinion](#)

Reporting

Annual green bond investor report

First [Green Bond Investor Report](#) published in May 2025

Allocation reporting

- Green bonds outstanding
- The amount of net proceeds allocated
- A breakdown of the Eligible loans by sub-category
- Distribution of new financing to refinancing

Impact reporting

The environmental impact of the Eligible loan portfolio

Impact indicators

- Annual energy savings (MWh or GWh)
- Annual CO₂ emissions reduced/avoided
- Distribution of EPC labels

Guided by the ICMA's Harmonised Framework for Impact Reporting Handbook

Portfolio of eligible loans

Category	Volume (SEK)	Max PED ¹ (kWh/m ²)
Existing tenant-owner rights	4.7 bn	81
Existing single-family homes	2.7 bn	78
New tenant-owner rights	1.7 bn	67
New single-family homes	0.3 bn	81
Major renovations ²	0 bn	N/A
Total	9.6 bn	

¹ PED, or Primary Energy Demand, is the indicator set for the energy performance of buildings in the EU Taxonomy. PED thresholds differ between EU member states. The Swedish National Building Standard (BBR) determines the baseline PED for Swedish buildings.

² No project qualify currently under the category "Major renovations"

Eligible loan portfolio as of November 2024, information updated annually.

Category distribution

- New buildings, built after 2020
- Existing buildings, built prior to 2021
- Major renovation of buildings

EPC class distribution

Environmental impact of outstanding green bonds

Green bonds outstanding

SEK 1.0 bn

as of 2025-08-31

Total impact of outstanding green bonds

407 MWh

Annual energy savings

93 t CO₂e

Annual GHG emissions
avoided

Impact calculations as of 2024-11-30. Calculations based on guidance from PCAF, ICMA's Harmonised Framework for Impact Reporting Handbook as well as the Nordic Public Sector Issuers Position Paper on Green Bonds Impact Reporting. For more information, please see Skandiabanken's Green Bond Investor Report.

Selection of eligible loans

Eligible loan

Valid Energy Performance Certificate (EPC) and fulfills criterias for one of the categories below

New buildings

Built after 31 Dec 2020

PED 10% lower than BBR29 (NZEB)

Existing buildings

Built before 31 Dec 2020

EPC class A or PED top 15% of national stock

Single family home

Max PED = 81 kWh/m²

Tenant-owner rights

Max PED = 67 kWh/m²

Single family home

Max PED = 78 kWh/m²

Tenant-owner rights

Max PED = 81 kWh/m²

- Selection based only on EPCs issued on or after September 1, 2020 (BBR29)
- PED thresholds for new buildings based on requirements in the Swedish National Building Code (BBR29)
- Primary energy demand within the top 15% of Swedish national building stock determined by a study from the Swedish Property Federation ("Fastighetsägarna")

Other sustainability initiatives: Financial inclusion

Working actively for improved access to the Swedish housing market

- Annual mapping of young adults' access to the Swedish housing market (<35 years) in *Lön utan Lägenhet*
- Advocacy for policy changes to enable young adults to buy property as well as for transparent mortgage pricing
- Cooperation with different partners that offer alternative forms of property ownership ("hyrköp" or "deläga")

Bodil

6. Appendix

skandia:

Skandiabanken mortgage lending (SEKmn)

Source: Statistics Sweden

Rating

Rated by Moody's Investor Services

- Long term deposit rating: A2 (Stable)
- Issuer Rating: A2 (Stable)
- Covered bonds - Rating: Aaa

Rating policy

- All covered bonds are rated
- Senior bonds will not be rated unless that is explicitly negotiated

"Credit strengths

- *Very strong asset quality*
- *Strong capitalisation*
- *Very high support from Skandia group*

Credit challenges

- *Monoline business focused on mortgages*
- *Historical high lending growth*
- *Moderate efficiency compared to peers"*

Source: Moody's credit opinion, December 2024

Cover pool: Stable LTV ratio & OC

Over-collateralisation

- Soft target of around 30 percent
- Creating a healthy cushion for owners of both secured and unsecured debt

Loan-to-value

- Asset revaluation twice every year
- Borrowers with low LTV are offered the lowest rates

Asset quality

Loan-to-value

Gross income-to-loan ratio - New lending

Outstanding covered bonds

As of 2025-08-08

Key Dates

Compliant with established market standard

Aligned with the core components of the ICMA Green Bond Principles

ICMA Green bond principles

1. Use of Proceeds

The net proceeds of green bonds will finance or refinance eligible loans

2. Process for project evaluation and selection

The Green Bond Committee (GBC) determines which loans constitute eligible loans

3. Management of Proceeds

An amount equal to the proceeds is separately identified and applied in the financing of eligible loans

4. Reporting

The allocation of proceeds and the expected or actual outputs and environmental impacts of the eligible loans (impact report)

5. External Review

Second-party opinion by Sustainalytics

Process for Project Evaluation and Selection

The process for selecting eligible loans

- Foundation in market standards, green bond principles and the EU-taxonomy
- Energy performance certificates as source of information
- Using only EPCs issued on or after September 1st 2020⁵
- This creates a conservative, transparent and robust selection method

Management of Proceeds

- Proceeds from green bonds earmarked for Eligible loans
- In practice the eligible loans will be identified first
- May be temporarily invested in the liquidity reserve

Use of proceeds (Eligible loans)

Three categories based on EU Taxonomy Technical Screening Criteria

New buildings

- Built after 2020
- Primary Energy Demand (PED) at least 10 percent lower than the Swedish building regulation-threshold (BBR)²
- Energy performance certified using a valid Energy Performance Certificate (EPC)

Existing buildings

- Built before 2021
- Valid EPC class A, or;
- PED within the top 15 percent of the national or regional building stock³

Major renovation of buildings

- Renovations of existing buildings that lead to a reduction in the PED of at least 30 percent, or;
- Renovations that complies with the applicable requirements for major renovations

Exclusion

Proceeds from Skandiabanken's green bonds will not be used to finance fossil-based energy generation

² The EU Taxonomy requires the primary energy demand for new buildings to be 10 per cent lower than the level required for Nearly Zero Energy Buildings (NZEB). Requirements for NZEB and BBR are, according to Skandiabanken's interpretation, equivalent to each other

³ Until further notice, Skandiabanken will use the Swedish Property Federation's study to determine which building's primary energy demand (PED) is within the top 15 per cent threshold. Skandiabanken can also seek guidance from other appropriate external benchmarks to determine the top 15 per cent threshold if such a report is issued by a national government or industry specialist.
