Final Terms
dated 25 March 2013

with respect to the

Base Prospectus
dated 27 June 2012

relating to

Structured Notes
relating to the performance of
the ICE Brent Crude Futures Contract
(ISIN SE0005127297)

Public Offer in the Kingdom of Sweden

In addition to the information relevant to this issue of Notes, these Final Terms repeat some of the information set out in the Base Prospectus dated 27 June 2012 regarding the Notes where the Issuer deems such information necessary in order to satisfy the investor's need for information in relation to this issue of Notes.

RISK FACTORS

The purchase of structured notes (the "**Notes**") is associated with certain risks. The information set forth hereinafter describes the major risks that are associated with an investment in the Notes in the Issuer's opinion. In this regard, however, **the Issuer expressly points out that the description of the risks associated with an investment in the Notes does not purport to be exhaustive.**

In addition, the order in which such risks are presented does not indicate the extent of their potential commercial effects in the event that they are realised, or the likelihood of their realisation. The realisation of one or more of said risks may adversely affect the assets, finances and profits of Commerzbank Aktiengesellschaft or the value of the Notes themselves.

Moreover, additional risks that are not known at the date of the Base Prospectus and these Final Terms or currently believed to be immaterial could likewise have an adverse effect on the value of the Notes.

The occurrence of one or more of the risks disclosed in the Base Prospectus, any supplement and/or these Final Terms or any additional risks may lead to a material and sustained loss and, depending on the structure of the Note, even result in partial loss or even the **total loss** of the investor's capital.

Investors should purchase the Notes only if they are able to bear the risk of losing the capital invested, including any transaction costs incurred.

Potential investors in the Notes must in each case determine the suitability of the relevant investment in light of their own personal and financial situation. In particular, potential investors should in each case:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and/or the information contained or incorporated by reference in the Base Prospectus or any applicable supplement and all the information contained in these Final Terms;
- have sufficient financial resources and liquidity to bear all of the risks associated with an investment in the Notes;
- understand thoroughly the Terms and Conditions pertaining to the Notes (the "**Terms and Conditions**") and be familiar with the behaviour of any relevant underlier and the financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect the value of their investment and be able to bear the associated risks.

These risk warnings do not substitute advice by the investor's bank or by the investor's legal, business or tax advisers, which should in any event be obtained by the investor in order to be able to assess the consequences of an investment in the Notes. Investment decisions should not be made solely on the basis of the risk warnings set out in the Base Prospectus, any supplement and/or these Final Terms since such information cannot serve as a substitute for individual advice and information which is tailored to the requirements, objectives, experience, knowledge and circumstances of the investor concerned.

The Notes are subject to - potentially major - price fluctuations and may involve the risk of a **complete or partial loss** of the invested capital (including any costs incurred in connection with the purchase of the Notes). Since, in the case of Notes, interest or the Redemption Amount is linked to an underlier (share, index, metal (i.e. precious and industrial metal), futures contract, bond, currency exchange rate, interest rate, fund or a basket or an index that is composed of any of the aforementioned values, commodities or rates (the "**Underlier**"), or to one or more formulae ("**Structured Notes**")), Notes are investments that might not be suitable for all investors.

The Notes may have complex structures, which the investor might not fully understand. The investor might therefore underestimate the actual risk that is associated with a purchase of the Notes. Therefore, potential investors should study carefully the risks associated with an investment in the Notes (with regard to the Issuer, the type of Notes and/or the Underlier, as applicable), as well as any other information contained in the Base Prospectus, any supplements thereto as well as the relevant Final Terms, and possibly consult their personal (including tax) advisors. Prior to purchasing Notes, potential investors should ensure that they fully understand the mechanics of the relevant Notes and that they are able to assess and bear the risk of a **(total)** loss of their investment. Prospective purchasers of Notes should in each case consider carefully whether the Notes are suitable for them in the light of their individual circumstances and financial position.

It is possible that the performance of the Notes is adversely affected by several risk factors at the same time. The Issuer, however, is unable to make any reliable prediction on such combined effects.

Other general risks associated with the purchase of the Notes (such as factors influencing the price of the Notes at the time of issue and in the secondary market, conflicts of interest, hedging risks, interest rate and inflationary risks, as well as currency risks) are set out in the detailed provisions of the Base Prospectus dated 27 June 2012.

Special risks relating to the Structured Notes

- **General**

Each Note entitles its holder to receive on the Maturity Date the Redemption Amount.

The Redemption Amount per Note will be

- (i) the sum of (a) the Denomination and (b) the Denomination multiplied by the higher of (i) the Fixed Rate or (ii) the Performance minus 1 (one), as the case may be, if on the Valuation Date the Reference Price of the Underlier is equal to or above 70% of its Initial Price; or
- (ii) the Denomination multiplied by the Performance in all other cases, all as specified in the Terms and Conditions.

In the latter case, the Redemption Amount will not exceed SEK 7,000 and, if the Performance is 0 (zero), there will be no Redemption Amount payable at all. **In such case, the investor will lose the total amount of the invested capital (including transaction costs).**

The Fixed Rate will be fixed only on the Strike Date by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) on the basis of the market conditions prevailing on such date, subject to postponement in accordance with the Terms and Conditions. The indication for the Fixed Rate based on the market conditions as of 25 March 2013 is 25% (in any case, it will not be below 20%), all as determined in the Terms and Conditions.

The Performance is a decimal number calculated by dividing the Reference Prices of the Underlier with respect to the Valuation Date by its Initial Price.

Investors should note that the Initial Price of the Underlier shall be the Reference Price of such Underlier determined by the Issuer on the Strike Date, subject to postponement in accordance with the Terms and Conditions, all as specified in the Terms and Conditions.

- **Loss risks**

A potential profit from an investment in the Notes can only be made in the case that the Redemption Amount is higher than the amount, including any transaction costs, at which the Notes have been purchased.

As the level of the Underlier is volatile, a profit from an investment in the Notes cannot be guaranteed.

Investors should be aware that if on the Valuation Date the Reference Price of the Underlier is below 70% of the Initial Price the Redemption Amount payable at the Maturity Date will be significantly below the par value of the Notes. If the Performance is 0 (zero), there will be no Redemption Amount payable at all. **In such case, the investor will lose the total amount of the invested capital (including transaction costs).**

The Notes do not bear any interest and the holders of the Notes are not entitled to receive any dividends or other distributions paid.

In addition, the costs associated with the purchase or sale of the Notes must be taken into account when considering the economic aspects of an investment.

Furthermore, investors bear the risk that the Issuer's financial situation may deteriorate - or that insolvency proceedings might be instituted with regard to its assets - and that the Issuer might therefore default on the payments due under the Notes.

- **No regular income**

The Notes represent neither a claim to interest nor dividend payments and thus do **not** generate any regular income. This means that it may not be possible to compensate for potential losses associated with an investment in the Notes through income generated in connection therewith.

- **Adjustments and termination by the Issuer**

Subject to particular circumstances as described in greater detail in the Terms and Conditions, the Issuer may be entitled to perform certain adjustments. Such adjustments may have an adverse effect on the value of the Notes.

In addition, the Issuer may be entitled to early terminate the Notes in accordance with the Terms and Conditions. In that case, the Notes will expire prematurely. If the Issuer gives notice of termination regarding the Notes, all outstanding Notes shall be redeemed at the Termination Amount which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account applicable market conditions and any proceeds realised by the Issuer in connection with any Hedging Transactions. When determining the Termination Amount, the Issuer may take into account expenses for transactions that were required for winding up the Hedging Transactions in the Issuer's reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) as deductible items.

- **Redemption at maturity, sale of the Notes**

Except in the case of the termination of the Notes by the Issuer (§ 7 of the Terms and Conditions), the Terms and Conditions provide for the payment of the Redemption Amount to the Noteholders only on the Maturity Date.

Prior to the Maturity Date, the economic value represented by the Notes may be realised only by way of a sale of the Notes. A sale of the Notes, however, is contingent upon the availability of market participants who are prepared to purchase the Notes at a corresponding price. If no such market participants are available, it may not be possible to realise the value of the Notes. In particular, investors cannot expect that there will be a liquid market for the Notes under all circumstances and therefore, they also cannot expect that the assets invested in the Notes may be realised at any time by way of a sale of the Notes. For that reason, investors should be prepared to hold the Notes until the Maturity Date.

- **Notes are unsecured obligations (Status)**

The obligations under the Notes constitute direct and unconditional obligations of the Issuer that are not subject to a real charge (*nicht dinglich besichert*) and, unless otherwise provided by applicable law, rank at least *pari passu* with all other unsubordinated obligations of the Issuer that are not subject to a real charge. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbands deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*).

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore payments due under the Notes can not or only partially be done. **Under these circumstances, a total loss of the investor's capital might be possible.**

The Issuer may enter into hedging transactions in the relevant Underlier but is under no obligation to do so. If hedging transactions are entered into, they shall exclusively be to the benefit of the Issuer, and the investors shall have no entitlement whatsoever to the Underlier or with respect to the hedging transaction. Hedging transactions entered into by the Issuer shall not give rise to any legal relationship between the investors and the party responsible for the Underlier.

- **Risk factors relating to the Underlier**

The value of a Note's underlier depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control.

The past performance of an underlier should not be regarded as an indicator of its future performance during the term of the Notes.

Particular risks of Notes with future contracts as Underlier

Futures contracts are standardised forward transactions relating to financial instruments such as shares, indices, interest rates or foreign currencies (so-called financial futures) or commodities such as copper and uranium, wheat or sugar (so-called commodities futures).

A futures contract represents the contractual obligation to purchase or sell a certain quantity of the relevant contractual object at a certain date and price. Futures contracts are traded on futures and options exchanges and are standardised for that purpose with regard to size of contract, type and quality of the contractual object and potential delivery places and dates.

As a rule, there is a close correlation between the price performance of an asset that underlies a futures contract and is traded on a spot market and the corresponding futures market. However, futures contracts are generally traded at a premium or discount in relation to the spot price of the underlying asset. This difference between the spot and futures price, which is referred to as "basis" in futures and options exchange jargon, on the one hand results from the inclusion of the costs that are normally incurred in spot transactions (storage, delivery, insurance, etc.) and/or the revenues that are normally associated with spot transactions (interest, dividends, etc.), and on the other hand from the differing valuation of general market factors in the spot and the futures market. In addition, depending on the value, there can be a significant gap in terms of the liquidity in the spot and the corresponding futures market.

As the Notes relate to the futures contracts specified in the Terms and Conditions, investors, in addition to knowing the market for the relevant asset that underlies the relevant futures contract, must have know-how as to the workings and valuation factors of forward/futures transactions in order to be able to correctly assess the risks associated with an investment in those Notes.

As futures contracts expire on a certain date, the Terms and Conditions may provide that the Issuer (particularly in the case of Notes with a longer term), at a time stipulated in the Terms and Conditions, replaces the futures contract provided for as the Underlier in the Terms and Conditions by another futures contract that has a later expiry date than the initial underlying futures contract, but is otherwise subject to the same contractual specifications (so-called "**Roll-over**"). The costs associated with such a Roll-over will be taken into account in accordance with the Terms and Conditions in connection with the adjustment of the Strikes of the Notes in conjunction with the Roll-over and may have a significant effect on the value of the Notes. The Terms and Conditions may provide for additional cases in which the Issuer may replace the initial futures contract and/or change parameters of the Terms and Conditions and/or terminate the Notes.

Commodities futures

Commodities can be divided into several categories, e.g. minerals (e.g. oil, gas or aluminium), agricultural products (e.g. wheat or maize) and metals (e.g. copper, uranium). Most commodities are traded on specialised exchanges or in interbank trading in the form of over-the-counter (OTC) transactions.

Holders of Notes linked to the price of commodities are exposed to significant price risks as prices of commodities are subject to great fluctuations. The prices of commodities are influenced by a number of factors, including, inter alia, the following factors:

Cartels and regulatory changes

A number of producers or producing countries of commodities have formed organisations or cartels to regulate supply and therefore influence prices. However, the trading in commodities is also subject to regulations imposed by supervisory authorities or market rules whose application may also affect the development of the prices of the relevant commodities.

Cyclical supply and demand behaviour

Agricultural commodities are produced at a particular time of year but are in demand throughout the year. In contrast, energy is produced without interruption, even though it is mainly required during cold or very hot times of the year. This cyclical supply and demand pattern may lead to strong price fluctuations.

Direct investment costs

Direct investments in commodities are associated with costs for storage, insurance and taxes. In addition, no interest or dividends are paid on commodities. The overall yield of an investment is influenced by these factors.

Inflation and deflation

The general development of prices may have a strong effect on the price development of commodities.

Liquidity

Many markets of commodities are not very liquid and may therefore not be able to react rapidly and sufficiently to changes in supply and demand. In case of low liquidity, speculative investments by individual market participants may lead to price distortions.

Political risks

Commodities are frequently produced in emerging markets and subject to demand from industrialised countries. The political and economic situation of emerging markets, however, is often a lot less stable than that of industrialised countries. Emerging markets are exposed to a greater risk of rapid political changes and adverse economic developments. Political crises can damage investors' confidence, which can in turn influence commodity prices. Wars or conflicts may change the supply and demand in relation to certain commodities. It is also possible that industrialised countries impose embargoes regarding the export and import of goods and services. This may have a direct or indirect effect on the price of the commodities that serve as the Notes' Underlying.

Weather and natural disasters

Unfavourable weather conditions and natural disasters may have a long-term negative effect on the supply of specific commodities for an entire year. A crisis of supply of this sort may lead to strong and incalculable price fluctuations.

or

- (b) In all other cases, the Redemption Amount per Note shall be calculated in accordance with the following formula:

$$RA = D \times PF$$

where:

3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

§ 7 ADJUSTMENTS; TERMINATION RIGHT OF THE ISSUER

If an Extraordinary Event (as defined below) has a material effect on the price of the Futures Contract or the Commodity, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. The Issuer may instead of such adjustment optionally terminate the Notes prematurely with respect to a Payment Business Day (the "**Termination Date**") taking into consideration the provisions set forth hereinafter with a prior notice of seven Payment Business Days in accordance with § 13. Any termination of the Notes in part shall be excluded.

- (a) Adjustments to the Terms and Conditions shall correspond to the adjustments to the Futures Contract or the Commodity made by the Exchange. In the event of any doubts regarding the application of the adjustment rules of the Exchange, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The adjustments made by the Issuer may deviate from those made by the Exchange in cases where the adjustments made by the Exchange would only lead to a minor adjustment of the Terms and Conditions, as well as in cases when and where such deviation is necessary in the reasonable discretion of the Issuer (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) to compensate for the economic effect of the relevant Extraordinary Event on the price of the Futures Contract or the Commodity.

As a result of such adjustments especially the Initial Price may be amended. The adjustments may also result in the Futures Contract being replaced by other futures contracts and/or another exchange being determined as the Exchange.

Adjustments and determinations take effect as from the date determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)), provided that (in case the Issuer takes into consideration the manner in which adjustments are made by the Exchange) the Issuer shall take into consideration the date at which such adjustments take effect at the Exchange.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 13.

Any adjustment in accordance with this § 7 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

- (b) If the Notes are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the termination amount per Note (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account applicable market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Notes (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Noteholders not later than the tenth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Notes with the Clearing System. The rights in connection with the Notes shall expire upon the payment of the Termination Amount to the Clearing System.

Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under these Terms and Conditions with the same effect as if the New Issuer had been named as the Issuer herein; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Notes.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

§ 13 NOTICES

Notices relating to the Notes shall in addition be published on the internet page <http://fim.commerzbank.com> (or on another internet page notified at least six weeks in advance by the Issuer in accordance with this § 13). If applicable law or regulations of the stock exchange on which the Notes are listed require a notification in another manner, notices shall also be given in the manner so required.

§ 14 LIMITATION OF LIABILITY

The Issuer shall be held responsible for acting or failing to act in connection with the Notes only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. 2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Noteholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Noteholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Notes to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within five calendar days following receipt of the Rescission Redemption Notice and of the Notes by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Notes delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Notes on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Noteholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Noteholder (and the rescission shall not take effect), unless the Noteholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Notes to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Noteholder (as declared and proved by evidence in the request for repayment of the relevant Noteholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the traded prices of the Notes on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Price Source Disruption or a Trading Disruption with

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Noteholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Noteholders. Notice of any such correction or amendment shall be given to the Noteholders in accordance with § 13.
6. If the Noteholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Notes, then, notwithstanding paragraphs 2 - 5, the Noteholders can be bound by the Issuer to the corrected Terms and Conditions. If the Noteholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Notes, then, notwithstanding paragraphs 2 - 5, the Noteholders can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Notes for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main.
