1. All amounts payable pursuant to these Terms and Conditions shall be made to the Paying Agent subject to the provision that the Paying Agent transfers such amounts to the Clearing System on the dates stated in these Terms and Conditions so that they may be credited to the accounts of the relevant custodian banks and then forwarded on to the Noteholders.

Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Notes in the amount of such payment.

2. If any payment with respect to a Note is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this case, the relevant Noteholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

§ 7 ADJUSTMENTS; TERMINATION RIGHT OF THE ISSUER

1. If an Adjustment Event or an Extraordinary Event has a material effect on the price of the Share, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of such an adjustment) optionally terminate the Notes prematurely.
 - (a) Adjustments to the Terms and Conditions shall correspond to the adjustments to option or futures contracts relating to the Share made by the Futures Exchange or that would have been made by the Futures Exchange if such option or futures contracts were traded on the Futures Exchange. In the event of any doubts regarding the application of the adjustment rules of the Futures Exchange, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The adjustments made by the Issuer may deviate from those made by the Futures Exchange in cases where the adjustments made by the Futures Exchange would only lead to a minor adjustment of the Terms and Conditions, as well as in cases when and where such deviation is necessary in the reasonable discretion of the Issuer (*billiges Ermessen*) (§ 315 German Civil Code

(*BGB*) to compensate for the economic effect of the relevant Adjustment Event or Extraordinary Event on the price of the Share.

As a result of such adjustments especially the Initial Price may be amended. The adjustments may also result in the Share being replaced by another share or other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. If the Futures Exchange makes an adjustment by replacing the Share by a basket of shares, the Issuer shall be entitled to determine only the share with the highest market capitalisation on the relevant Cut-off Date as the (new) Share, to sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and to reinvest the proceeds immediately afterwards in the remaining Share.

Adjustments and determinations take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)), provided that (if the Issuer follows the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall use the date at which such adjustments take effect or would take effect at the Futures Exchange if such option or futures contracts were traded at the Futures Exchange.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 13.

Any adjustment in accordance with this § 7 paragraph 1 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

- (b) If the Notes are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the termination amount per Note (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Notes (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer may terminate the Notes prematurely with respect to an Exchange Business Day (the "**Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 13. Any termination of the Notes in part shall be excluded.

The Issuer shall pay the Termination Amount to the Noteholders not later than the tenth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Notes with the Clearing System. The rights in connection with the Notes shall expire upon the payment of the Termination Amount to the Clearing System.

2. The Issuer may also terminate the Notes prematurely in accordance with the above in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.
3. The Issuer may also terminate the Notes prematurely in accordance with the above in the case of a Hedging Disruption.

In addition, the Issuer may terminate the Notes prematurely in accordance with the above in the case of a Change in Law.

§ 8 TAXES

All present and future taxes, fees or other duties in connection with the Notes shall be borne and paid by the Noteholders. The Issuer is entitled to withhold from payments to be made under the Notes any taxes, fees and/or duties payable by the Noteholder in accordance with the previous sentence.

§ 9 STATUS

The obligations under the Notes constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least pari passu with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

§ 10 PAYING AGENT

1. Skandinaviska Enskilda Banken AB (publ), a banking institution incorporated under the laws of Sweden, whose corporate seat and registered office is at Kungsträdgårdsgatan 8, SE-106 40 Stockholm, Sweden, acting through its division SEB Merchant Banking, shall be the paying agent (the "Paying Agent").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 German Civil Code (*BGB*) and any similar restrictions of the applicable laws of any other country.

§ 11 TERMINATION

1. Each Noteholder is entitled to declare his Notes due and to require the redemption of his Notes pursuant to paragraph 2 below, if:
 - (a) the Issuer is in default for more than 30 days in the payment under these Terms and Conditions, or
 - (b) the Issuer violates any other obligation under these Terms and Conditions, and such violation continues for 60 days after receipt of written notice thereof from the respective Noteholder, or
 - (c) the Issuer is wound up or dissolved whether by a resolution of the shareholders or otherwise (except in connection with a merger or reorganisation in such a way that all of the assets and liabilities of the Issuer pass to another legal person in universal succession by operation of law), or
 - (d) the Issuer ceases its payments and this continues for 60 days, or admits to be unable to pay its debts, or
 - (e) any insolvency proceedings are instituted against the Issuer which shall not have been dismissed or stayed within 60 days after their institution or the Issuer applies for the institution of such proceedings, or offers or makes an arrangement for the benefit of its creditors, or
 - (f) any of the events set forth in sub-paragraphs (c) – (e) above occurs in respect of the Guarantor (§ 12).

The right to declare Notes due shall terminate if the circumstances giving rise to it have been remedied before such right is exercised.

2. The right to declare Notes due pursuant to § 11 paragraph 1 shall be exercised by a Noteholder by delivering or sending by registered mail to the Paying Agent a written notice which shall state the principal amount of the Notes called for redemption and shall enclose evidence of ownership reasonably satisfactory to the Paying Agent. Following such declaration the Notes shall be redeemed at the early redemption amount (the "**Early Redemption Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) as the fair market value of the Notes at the date as determined by the Issuer. Such date and the Early Redemption Amount shall be notified directly to the relevant Noteholder. The rights arising from the Notes will terminate upon the payment of the Early Redemption Amount.

§ 12 SUBSTITUTION OF THE ISSUER

1. Any other company may assume at any time during the lifetime of the Notes, subject to paragraph 2, without the Noteholders' consent all the obligations of the Issuer under these Terms and Conditions. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under these Terms and Conditions with the same effect as if the New Issuer had been named as the Issuer herein; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Notes.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
 - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Notes pursuant to these Terms and Conditions;
 - (b) the New Issuer has agreed to indemnify and hold harmless each Noteholder against any tax, duty, assessment or governmental charge imposed on such Noteholder in respect of such substitution;
 - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Noteholders compliance by the New Issuer with all obligations under the Notes pursuant to these Terms and Conditions;
 - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised;
 - (e) Euroclear Sweden has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

§ 13 NOTICES

Notices relating to the Notes shall be published in the Federal Gazette (*Bundesanzeiger*) and shall be deemed to be effective upon such publication unless such publication gives another effective date.

If the Notes are offered to the public, notices relating to the Notes shall in addition be published on the website <http://fim.commerzbank.com> (or on another website notified at least six weeks in advance by the Issuer in accordance with this § 13). If applicable law or regulations of the stock exchange on which the Notes are listed require a notification in another manner, notices shall also be given in the manner so required.

§ 14 LIMITATION OF LIABILITY; PRESENTATION PERIODS; PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with the Notes only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Notes (§ 801 paragraph 1, sentence 1 German Civil Code (*BGB*)) shall be ten years and the period of limitation for claims under the Notes presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

§ 15 FINAL CLAUSES

1. The Notes and the rights and duties of the Noteholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany except § 1 paragraph 1 - 3 of the Terms and Conditions which shall be governed by the laws of the relevant jurisdiction of the Clearing System.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Noteholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Noteholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Notes to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Notes by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Notes delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Notes on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Noteholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Noteholder (and the rescission shall not take effect), unless the Noteholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Notes to the account of the

Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.

4. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Notes for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. SECTION D – RISKS

The purchase of Notes is associated with certain risks. The Issuer expressly points out that the description of the risks associated with an investment in the Notes describes only the major risks which were known to the Issuer at the date of the Base Prospectus.

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the issuer	<p>The Notes entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that Commerzbank becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount or any other payments to be made under the Notes.</p> <p>Furthermore, Commerzbank is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>

Global Financial Market Crisis and Sovereign Debt Crisis

The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.

Macroeconomic Environment

The macroeconomic environment prevailing over the past few years continues to negatively affect the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of a possible renewed economic downturn.

Counterparty Default Risk

The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "cluster" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and these defaults may not be sufficiently covered by collateral or by write-downs and provisions

previously taken.

Market Price Risks

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

Strategic Risks

There is a risk that the Group may not be able to implement its strategic agenda or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.

Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations. Currently, the liquidity supply of banks and other players in the financial markets is strongly dependent on expansive measures of the central banks.

Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or violate compliance-relevant regulations in connection with the conduct of business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.

Risks from Equity Participations

COMMERZBANK is exposed to particular risks in respect of the value and management of equity investments in listed and unlisted companies. It is possible that the goodwill reported in the Group's consolidated financial statements will have to be fully or partly written down as a result of impairment tests.

Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of proprietary

trading from the deposit-taking business, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

Legal Risks

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

D.6 Key information on the key risks that are specific to the securities

No secondary market immediately prior to final maturity

The market maker and/or the exchange will cease trading in the Notes shortly before their scheduled Maturity Date. However, between the last trading day and the valuation date, the price of the Underlying(s) and/or the exchange rate, both of which may be relevant for the Notes may still change and any kind of threshold or price, as the case may be, which may be relevant for the payments under the Notes could be reached, exceeded or breached in another way for the first time. This may be to the investor's disadvantage.

No collateralization

The Notes constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Notes. Under these circumstances, a total loss of the investor's capital might be possible.

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Notes cannot or only partially be done. Under these circumstances, a total loss of the investor's capital might be possible.

The proposed financial transactions tax (FTT)

The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia

and Slovakia. The proposed financial transactions tax could apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Notes.

Risks in connection with the EU framework for the recovery and resolution of credit institutions and investment firms, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities

The EU framework for the recovery and resolution of credit institutions and investment firms (the so-called Bank Recovery and Resolution Directive ("**BRRD**") that will have to be applied by Member States from 1 January 2015, except for the general bail-in tool which is to be applied from 1 January 2016, provides *inter alia* for potential loss participation of creditors of failing credit institutions through a bail-in which gives the competent resolution authority the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including senior securities) to equity (the "**general bail-in tool**"), which equity could also be subject to any future application of the general bail-in tool.

Any such write-down (or conversion into equity) would not result in an early redemption. Consequently, any amounts so written down would be irrevocably lost and the holders of such instruments would cease to have any claims thereunder, regardless whether or not the bank's financial position is restored. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of Securityholders, the price or value of their investment in any Securities and/or the ability of the Issuer and/or the Guarantor to satisfy its obligations under any Securities and/or the guarantee.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments that should become applicable as of 1 January 2016. A centralised decision-making will be built around a Single Resolution Board. This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG)). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be

prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.

U.S. Foreign Account Tax Compliance Act Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register or (ii) securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to the foreign account tax compliance act provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010.

Impact of a downgrading of the credit rating

The value of the Notes could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Notes.

Termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments with regard to the Terms and Conditions or to terminate and redeem the Notes prematurely if certain conditions are met. This may have a negative effect on the value of the Notes as well as the Termination Amount. If the Notes are terminated, the amount payable to the holders of the Notes in the event of the termination of the Notes may be lower than the amount the holders of the Notes would have received without such termination.

Market disruption event

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Notes and that might affect the value of the Notes. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

Substitution of the Issuer

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Notes, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Notes in its place. In that case, the holder of the Notes will generally also

assume the insolvency risk with regard to the new Issuer.

Risk factors relating to the Underlying

The Notes depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Notes.

Risk relating to an early redemption

Under certain circumstances as set forth in the relevant Final Terms, the Notes may be redeemed early if certain conditions are met, which may adversely affect the economics of the Notes for the investor.

Risk at maturity:

The redemption of the Notes on the Maturity Date depends on the performance of the Underlying or Underlyings, as the case may be. If the Notes have an FX exposure, the Redemption Amount of the Notes and any additional amount payable under the Notes may not only depend on the performance of the Underlying or Underlyings, as the case may be, but also on the development of the Conversion Rate.

A Redemption Amount will only be paid in the case that the Underlying Performance of the Worst Performing Underlying is greater than 0 (zero). If the Underlying Performance of the Worst Performing Underlying is 0 (zero) there will be no Redemption Amount payable at all. **In such case, the investor will lose the total amount of the invested capital (including transaction costs).**

Risks if the investor intends to sell or must sell the Notes during their term:

Market value risk:

The achievable sale price prior to the Maturity Date could be significantly lower than the purchase price paid by the investor.

The market value of the Notes mainly depends on the performance of the Underlying(s). In particular, the following factors may have an adverse effect on the market price of the Notes:

- Changes in the expected intensity of the fluctuation of the Underlying(s) (volatility)
- Remaining term of the Notes
- Interest rate development
- Development of the dividends of the Shares

Each of these factors could have an effect on its own or reinforce or cancel each other.

Trading risk:

The Issuer is neither obliged to provide purchase and sale prices for the Notes on a continuous basis on (i) the exchanges on which the Notes may be listed or (ii) an over the counter (OTC) basis nor to buy back any Notes. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Notes could be temporarily limited or impossible.

AVSNITT D – RISKER

Köpet av Obligationerna är förenat med vissa risker. Emittenten framhäver särskilt att beskrivningen av riskerna förenade med en investering i Obligationerna endast beskriver de väsentliga risker som var kända för Emittenten per dagen för Grundprospektet.

Punkt	Beskrivning av Upplysningskrav Punkt		
D.2	Huvudsakliga risker som är specifika för Emittenten	<p>Obligationerna medför en emittentrisk, även kallad gäldenärsrisk eller kreditrisk, för presumtiva investerare. En emittentrisk är risken för att Commerzbank tillfälligt eller permanent blir oförmöget att fullgöra sina skyldigheter att betala ränta och/eller inlösenbeloppet eller någon annan betalning som skall göras enligt Obligationerna.</p> <p>Dessutom är Commerzbank utsatt för olika risker i samband med sin affärsverksamhet. Sådana risker omfattar i synnerhet följande typer av risker:</p> <p><u>Globala finansmarknadskriser och statsskuldkriser:</u></p> <p>De globala finansmarknadskriserna och statsskuldkriserna, i synnerhet i euroområdet, har haft en betydande väsentligt negativ effekt på Koncernens nettotillgångar, finansiella ställning och rörelseresultat. Det kan inte garanteras att Koncernen inte kommer att drabbas av ytterligare väsentligt negativa effekter i framtiden, i synnerhet om krisen åter skulle förvärras. Skulle krisen inom Europeiska monetära unionen eskalera ytterligare skulle det kunna innebära väsentligt negativa effekter för Koncernen, vilket, under vissa omständigheter även skulle kunna hota Koncernens existens. Koncernen innehar en betydande volym statspapper. Nedskrivningar och omvärderingar av sådana statspapper till ett lägre verkligt värde har tidigare haft väsentligt negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat i det förflytta, och kan få ytterligare negativa effekter i framtiden.</p> <p><u>Makroekonomisk miljö:</u></p> <p>Den makroekonomiska miljö som rått under de senaste åren fortsätter att påverka Koncernens resultat negativt och Koncernens kraftiga beroende av det ekonomiska klimatet, i synnerhet i Tyskland, skulle kunna resultera i ytterligare avsevärt negativa effekter i det fall den ekonomiska konjunkturen skulle vända ned igen.</p> <p><u>Motpartsrisk:</u></p> <p>Koncernen är exponerad för motpartsrisk (kreditrisk), bland annat beträffande stora enskilda lån och åtaganden koncentrerade till enskilda sektorer – så kallad klusterrisk – samt beträffande lån till gäldenärer som kan påverkas särskilt av statsskuldkrisen. Stängningen av fartygfinansieringsportföljen och portföljen för finansiering av kommersiella fastigheter är exponerad mot avsevärda risker i ljuset av den rådande svåra marknadsmiljön och volatiliteten i skepps- och fastighetspriser samt motpartisrisken (kreditrisiken) som påverkas därav, liksom risken av betydande förändringar i värdet på skepp som utgör säkerhet samt direkt ägda fastigheter och privata och kommersiella fastigheter som utgör säkerhet. Koncernen har i sin portfölj ett stort antal nödlidande lån, och det kan hända att utebliven betalning på dessa lån inte är fullt</p>	

täckt av säkerheter eller av tidigare gjorda nedskrivningar och avsättningar.

Marknadsprisrisiker:

Koncernen är utsatt för marknadsprisrisiker i värderingen av aktier och andelar i investeringsfonder, samt för ränterisker, kreditspridningsrisker, valutarisker, volatilitets- och korrelationsrisker samt råvaruprisrisker.

Strategiska risker:

Det finns en risk för att Koncernen inte kommer att kunna genomföra sina strategiska planer eller endast kommer kunna göra det till viss del eller till högre kostnader än planerat, och att genomförandet av de planerade åtgärderna kanske inte kommer att leda till att de eftersträvade strategiska målen uppnås.

Risker från konkurrensmiljön:

De marknader inom vilka Koncernen är aktiv, i synnerhet den tyska marknaden (och i synnerhet affärer vad gäller privat- och företagskunder samt *investment banking*-verksamhet) och den polska marknaden, är karaktäriserade av intensiv konkurrens vad gäller pris och transaktionsvillkor vilket resulterar i avsevärd press på marginalerna.

Likviditetsrisiker:

Koncernen är beroende av regelbunden tillförsel av likviditet och en marknadsomfattande eller företagsspecifik likviditetsbrist kan få väsentliga negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat. För närvarande är bankers och andra finansmarknadsaktörers tillgång till likviditet starkt beroende av centralbankernas expansiva åtgärder.

Operationella risker:

Koncernen är utsatt för ett stort antal operationella risker, däribland risken för att medarbetarna utsätter Koncernen för omfattande risker på Koncernens bekostnad eller bryter mot lagstiftning relevant för reglefterlevnad under sina affärsaktiviteter och därigenom orsakar en plötslig uppkomst av avsevärda förluster vilka också indirekt skulle kunna leda till en ökning av kapitalkrav genom statlig reglering.

Risker från aktiepositioner:

COMMZERBANK är utsatt för särskilda risker när det gäller värdet och förvaltningen av investeringar i noterade och icke-noterade företag. Det är möjligt att den goodwill som redovisas i Koncernens balansräkning helt eller delvis måste skrivas ned som ett resultat av nedskrivningstester.

Risker från bankspecifik lagstiftning:

Allt strängare krav avseende kapital och likviditet samt processuella krav och rapporteringskrav kan leda till att affärsmodellen i ett antal av Koncernens verksamheter ifrågasätts och kan få en negativ effekt på Koncernens konkurrensställning eller göra anskaffandet av

ytterligare aktiekapital nödvändigt. Andra lagreformer som föreslås i kölvattnet efter finanskrisen, till exempel avgifter som bankskatt eller en möjlig skatt på finansiella transaktioner, separationen av handel för egen räkning (*proprietary trading*) från placeringsverksamheten eller strängare upplysnings- eller organisationskrav, skulle väsentligen kunna påverka koncernens affärsmiljö och konkurrensmiljö.

Juridiska risker:

Twister kan uppkomma inom COMMERZBANKs affärsverksamhet och deras utfall går inte att förutspå vilket medför risk för Koncernen. Exempelvis har skadeståndsanspråk på grund av bristfälliga investeringsråd lett till betydande ansvar för Koncernen och kan komma att leda till ytterligare betydande ansvar för Koncernen i framtiden. Betalnings- och ersättningsanspråk har riktats mot COMMERZBANK och dess dotterbolag, i vissa fall i domstol, i samband med vinstutdelningscertifikat och s.k. *trust preferred securities* som Koncernen emitterat. Resultaten av rättsprocesserna kan få väsentligt negativa effekter på Koncernen, utöver de anspråk som framställs i respektive fall. Regulatoriska processer, tillsynsprocesser och rättsliga förfaranden kan få en väsentlig negativ effekt på Koncernen. Rättsprocesser som inleds av lagstiftare, tillsynsmyndigheter och åklagare kan få en väsentlig negativ effekt på Koncernen.

D.6 Viktig information om de nyckelrisker som är specifika för värdepapperen

Ingen sekundärmarknad omedelbart före slutligt förfall

Marknadsgarantens och/eller börsens handel med Obligationerna kommer att upphöra strax före Obligationernas Förfallodag. Dock kan, mellan den sista handelsdagen och Värderingsdagen, priset på den Underliggande Tillgången och/eller gällande växelkurs, som båda kan vara relevanta för Obligationerna, fortfarande ändras, och alla typer av trösklar eller kurser, i förekommande fall, som kan vara relevanta för betalningar enligt Obligationerna, kan komma att nås, överskridas eller på annat sätt brytas för första gången. Detta kan vara till investerarens nackdel.

Ingen säkerhet

Obligationerna utgör ovillkorade förpliktelser för Emittenten. De garanteras varken av den Tyska Bankföreningens Insättningssgarantinämnd (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) eller av den tyska lagen om insättningssgaranti och investerarskydd (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Det betyder att investerarna bär risken för att Emittenten inte kan fullgöra sina skyldigheter enligt Obligationerna, eller endast kan fullgöra dem delvis. Under dessa omständigheter är det möjligt att investeraren förlorar hela sitt kapital.

Det betyder att investeraren bär risken för att Emittentens finansiella situation kan komma att försämras och att Emittenten därför blir föremål för omstruktureringsförfaranden (*Reorganisationsverfahren*) eller ett överlätelseförfarande (*Übertragungsanordnung*) enligt den tyska omstruktureringslagen eller att insolvensförfaranden kan komma att inledas avseende Emittentens tillgångar – och leda till att Emittenten inte kan göra några utbetalningar enligt Obligationerna, eller endast göra vissa utbetalningar. Under dessa omständigheter är det möjligt att investeraren förlorar hela sin investering.

Den föreslagna skatten på finansiella transaktioner (FTT)

Den Europeiska Kommissionen har föreslagit en gemensam skatt på finansiella transaktioner (FTT) att implementeras i Belgien, Tyskland, Estland, Grekland, Spanien, Frankrike, Italien, Österrike, Portugal, Slovenien och Slovakien. Den föreslagna skatten på finansiella transaktioner kan under vissa omständigheter komma att omfatta viss handel i Värdepapperen (inklusive handel på sekundärmarknaden). Skatten på finansiella transaktioner är emellertid fortfarande föremål för förhandling mellan de deltagande Medlemsstaterna. Ytterligare Medlemsstater kan välja att delta. Dessutom är det för närvarande osäkert när skatten på finansiella transaktioner kommer att införas och när skatten kommer att börja äga tillämpning vad avser handel med Värdepapperen.

Risker i samband med införande av en regim för återhämtning, rekonstruktion och avveckling för kreditinstitut

EU:s ramverk för återhämtning, rekonstruktion och avveckling för kreditinstitut och värdepappersföretag, det så kallade *Bank recovery and resolution directive* eller BRRD ("Krishanteringsdirektivet"), ska tillämpas av EU:s medlemsstater från och med den 1 januari 2015, med undantag för bestämmelserna om nedskrivning och/eller konvertering av skuldnstrument (*bail-in*) som skall tillämpas av medlemsstaterna från och med den 1 januari 2016. Krishanteringsdirektivet innefattar bland annat att ett kreditinstituts borgenärer potentiellt får delta i att bära uppkomna förluster genom ett förfarande där den relevanta myndigheten ges befogenhet att skriva ned vissa icke säkerställda fordringar från borgenärer till ett kreditinstitut på obestånd samt att konvertera vissa icke säkerställda skuldanspråk (inklusive seniora värdepapper) till aktier ("**Bail in-verktyget**"), som i sin tur kan bli föremål för framtida tillämpning av Bail in-verktyget.

Nedskrivning (eller konvertering till aktier) genom användande av Bail in-verktyget kommer inte att medföra förtida inlösen. Följaktligen kommer alla summor som skrivs ned att oåterkalleligen förloras, och innehavarna av sådana instrument skulle förlora sina anspråk enligt instrumenten oberoende av huruvida bankens finansiella ställning återställs. Användning av Bail in-verktyget eller förslag om sådan användning kan därför ha en väsentlig negativ inverkan på Värdepappersinnehavarna rättigheter, kursen eller värdet på deras investering i något Värdepapper och/eller möjligheten för Emissenten eller Garanten att uppfylla sina förpliktelser under något Värdepapper eller garantin.

EU-förordningen genom vilken den gemensamma rekonstruktionsmekanismen ("SRM-förordningen") inrättats innehåller bestämmelser häftliga till resolutionsplanering, tidiga ingripanden, resolutionsåtgärder och resolutionsverktyg som skall tillämpas från och med den 1 januari 2016. Ett centraliserat beslutsfattande kommer att byggas kring en gemensam resolutionsnämnd. Detta ramverk avser att säkerställa att det istället för nationella resolutionsmyndigheter inrättas en enda myndighet, nämnden, som kommer att fatta alla relevanta beslut för banker som utgör del av Bankunionen.

Den 29 januari 2014 antog den Europeiska Kommissionen ett förslag för en ny obligatorisk separation av vissa bankverksamheter

från varandra. Förslaget är i många avseenden mer strikt än de krav som uppställs av den tyska banksepareringslagen (paragrafer 3(2)-(4), 25f samt 64s i den tyska banklagen *Kreditwesengesetz*, KWG). Förslaget innebär att europeiska banker som överskridar vissa tröskelvärden under tre år i följd automatiskt kommer att förbjudas från att bedriva egenhandel (*proprietary trading*), snävt definierat som aktiviteter utan säkringssyfte eller koppling till kunders behov. Dessa tröskelvärden är antingen (i) att totala tillgångar lika med eller överstigande 30 miljarder euro eller (ii) att totala tradingtillgångar och skulder är lika med eller överstiger 70 miljarder euro eller tio procent av de totala tillgångarna. Sådana banker kommer heller inte att tillåtas att köpa eller behålla andelar i hedgefonder eller bolag som bedriver egenhandel eller sponsrar hedgefonder. Andra trading- och investment banking-verksamheter – inklusive market making, utlåning till venture capital- och private equity-fonder, investering i och sponsring av komplex värdepapperisering, försäljning av och handel med derivat – är inte föremål för förbud men kan bli föremål för separation. Egenhandelsförbudet skulle äga tillämpning från och med den 1 januari 2017 och den effektiva separationen av andra tradingverksamheter skulle tillämpas från och med den 1 juli 2018. Skulle en obligatorisk separation införas kan ytterligare kostnader inte uteslutas, exempelvis högre finansieringskostnader, ökade kapitalkrav och kostnader förknippade med verksamheten på grund av separationen eller förlust av diversifieringsfördelar.

Krav på innehållande av källskatt enligt FATCA

Emittenten kan tvingas innehålla källskatt på 30 procent på vissa eller samtliga betalningar gjorda efter den 31 december 2016 avseende (i) värdepapper som emitteras eller ändras väsentligt efter den dag som infaller sex månader efter den dag då de slutliga bestämmelserna tillämpliga på så kallade *foreign passthru payments* ges in till US Federal Register, eller (ii) värdepapper som betraktas som aktier i amerikanskt skatterättsligt hänseende, närmest de utfärdats, enligt bestämmelserna om utländska konton i US Hiring Incentives to Restore Employment Act of 2010.

Effekter av en nedgradering av kreditvärdigheten

Värdet på Obligationerna kan påverkas av det kreditbetyg som kreditvärderingsföretag ger Emittenten. En eventuell nedgradering av Emittentens kreditvärdighet av endast ett av dessa kreditvärderingsföretag skulle kunna resultera i att Obligationerna minskar i värde.

Uppsägning, förtida inlösen och justeringsrättigheter

Emittenten har rätt att utföra justeringar i Villkoren eller säga upp och lösa in Obligationerna i förtid om vissa villkor är uppfyllda. Detta kan få negativa effekter på Obligationernas värde samt Uppsägningsbeloppet. Om Obligationerna sägs upp kan det belopp som ska utbetalas till Obligationsinnehavarna i händelse av en uppsägning av Obligationerna bli lägre än det belopp som Obligationsinnehavarna skulle ha erhållit utan uppsägningen

Marknadsstörande händelse

Emittenten har rätt att fastställa marknadsstörande eller andra händelser som kan leda till att både beräkningar och/eller betalningar enligt Obligationerna skjuts upp, vilket kan påverka

Obligationernas värde. Dessutom kan Emittenten, i vissa fall, uppskatta vissa relevanta priser när det gäller att nå eller passera gränser. Dessa uppskattningsar kan avvika från det verkliga värdet.

Byte av Emittent

Om de gällande Villkoren är uppfyllda har Emittenten rätt att när som helst och utan medgivande från innehavarna av Obligationerna i sitt ställe utse ett annat företag som ny Emittent, och överläta alla förpliktelser med anknytning till Obligationerna. I så fall får innehavaren av Obligationerna i allmänhet också ta den insolvensrisk som förknippas med den nya Emittenten.

Riskfaktorer som förknippas med de Underliggande Tillgångarna

Obligationerna är beroende av värdet på den Underliggande Tillgången och den risk som förknippas med den Underliggande Tillgången. Värdet av den Underliggande Tillgången beror på många faktorer som kan höra ihop. Det kan röra sig om ekonomiska, finansiella och politiska händelser som ligger utanför Emittentens kontroll. Avkastningen på en Underliggande Tillgång eller en indexkomponent kan inte betraktas som en indikation på framtida avkastning under Obligationernas löptid.

Risk förknippad med förtida inlösen

Under vissa omständigheter som anges i de relevanta Slutliga Villkoren kan Obligationerna komma att lösas in i förtid om vissa villkor är uppfyllda, vilket kan få en negativ påverkan på Obligationernas ekonomi för investeraren.

Risk vid förfall

Inlösen av Obligationer på Förfalloldagen beror på utvecklingen för den Underliggande Tillgången. Om Certifikaten har en Valutaexponering beror Certifikatens Inlösenbelopp och andra tillkommande belopp betalningsbara under Tillgångarna inte bara på utvecklingen för den Underliggande Tillgången, utan även på den relevanta Omräkningskursens Utveckling.

Ett Inlösenbelopp betalas endast ut om den Underliggande Tillgångens Utveckling för den Underliggande Tillgången med Sämst Utveckling är större än 0 (noll). Om den Underliggande Tillgångens Utveckling för den Underliggande Tillgången med Sämst Utveckling är 0 (noll) utbetalas inget Inlösenbelopp överhuvudtaget. **I så fall förlorar investeraren hela det investerade kapitalet (inklusive transaktionskostnader).**

Risker om investeraren avser eller måste sälja Obligationerna under deras löptid:

Marknadsvärderisk:

Det försäljningspris som går att uppnå före Förfalloldagen kan vara väsentligt lägre än det inköpspris som investeraren betalat.

Obligationernas marknadsvärde beror huvudsakligen på den Underliggande Tillgångens utveckling. I synnerhet kan följande faktorer ha en väsentlig inverkan på Obligationernas marknadsvärde:

- Förändringar i den förväntade intensiteten i fluktuationerna för den Underliggande Tillgången (volatilitet)
- Återstående löptid för Obligationerna
- Ränteutveckling
- Aktiens utdelningsutveckling

Var och en av dessa faktorer kan påverka i sig, eller förstärka eller motverka varandra.

Handelsrisk:

Emittenten är varken skyldig att fortlöpande tillhandahålla köp- och säljkurser för Obligationerna på (i) de börser där Obligationerna är noterade eller på (ii) OTC-basis (over the counter), eller att köpa tillbaka Obligationer. Även om Emittenten normalt tillhandahåller köp- och säljkurser kan köp och försäljning av Obligationerna, under extraordnära marknadsvillkor eller vid tekniska problem, tillfälligt begränsas eller omöjliggöras.
